

# MERSTOW GREEN MEDICAL PRACTICE

## Patient survey appointment system feedback

The survey on the new system was completed on 30 October 2018 with thanks to our PPG representatives. The results are below. The PPG enjoyed the experience and patients were positive regarding the new appointment system. We will be repeating this survey again in January 2019.

There will be more health promotions in the Practice planned throughout the year. Further details will be provided on the patient noticeboard in reception or please click on the link to view some of the campaigns which will be featured.
